INTRODUCTION

In Volume I the history of the Coffin Texts project, the basis on which the texts are arranged, and the conventions adopted were explained. For the user's convenience certain information of the last type is repeated here, as it was in Volumes II-V.

Figures with an asterisk (1*, 2*, etc.) in the blank column to the right of any text column refer to the notes. These have, as far as possible, been given on the same page.

Dashes beside signs (|) mean that these signs were not seen by Sir Alan Gardiner or myself but rest on some other authority—publication or manuscript copy. In the vast majority of cases the authority in question is the manuscript of M. Lacau. As most former copies or publications do not preserve the arrangement of the originals, my arrangement of the signs in these parts is wholly arbitrary.

The symbol 1 is employed to indicate that the signs or sentences separated thereby follow one another in the original without any break.

Sometimes a simple line | will be found. Such a line has no other intention than to guide the eye, for example, if a text starts near the bottom of a page, thus being far away from its designation in the heading of the page. If such a line occurs between words or groups of words, these do not follow one another immediately in the original.

For reasons of economy the device adopted for indicating rubrics in Volumes IV and V—the use of a grid instead of red—has been continued in this volume. It is believed that the reader will encounter no difficulty in recognizing the substitute wherever it has been employed.

The notes are very brief and have been confined to purely textual matters—corrections, erasures, and the like. Also, in the case of a complicated arrangement or disorder in the manuscript, they help the reader to visualize the original.

The letters on the left-hand side of the page or of each group of parallel texts are meant to facilitate the quoting of the texts, which should in the editors' opinion be quoted by volume, page, and letter—for example, I 79 a, IV 159 d, etc.

¹ Nos. used in these vols. for Coffin Texts. In this list (though, except for Pyr. and in part for BD, not in the publications themselves) these and the other nos. are subdivided as required for greater exactness of reference. For example, BD 86 a is CT 283, but BD 86 b is CT 296.

² Nos. used (but there expressed in Roman, not Arabic, numerals) for Coffin Texts published by Pierre Lacau, "Textes religieux," Recueil de travaux relatifs à la philologie et à l'archéologie égyptiennes et assyriennes XXVI-XXXVII (1904-15), partially reprinted as Textes religieux égyptiens I (Paris, 1910).

² Nos. of spells in Book of the Dead as first assigned in Das Todtenbuch der Ägypter nach dem hieroglyphischen Papyrus in Turin . . . hrsg. von Dr. R. Lepsius (Leipzig, 1842), supplemented from Das aegyptische Todtenbuch der XVIII. bis XX. Dynastie . . . hrsg. von Edouard Naville (3 vols.; Berlin, 1886) and from The Chapters of Coming Forth by Day or the Theban Recension of the Book of the Dead, the Egyptian hieroglyphic text edited from numerous papyri by E. A. Wallis Budge . . . (3 vols.; London, 1910).

⁴ Nos. of paragraphs (not "Sprüche") of Pyramid Texts in *Die altaegyptischen Pyramidentexte* . . . neu hrsg. . . . von Kurt Sethe (4 vols.; Leipzig, 1908–22).

Spell 638

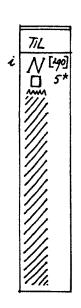

1* This restoration
fills the lacuna.

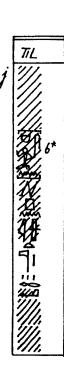

2* Npn is the
usual substitute
for <u>ink</u> in this MS.

3* Traces: "###",.

4* Restore: 5.

Spell b39

5* It is perhaps more probable that Npn belongs to the preceding spell (Sp. 109=II 122), that the lacuna contained a red title, and that hmsi is the beginning of the spell. If so, this spell is nearly identical with Sp. 309=Nb5. b* This orthography e.g. Tih 288. 7* A new Spell follows.
